SDMC Lajpat Nagar IV Girls' School: BEFORE & AFTER

SowGood Farm

Before Intervention

The field in the school was barren, when work began on setting up a farm, to enable students to learn about the environment.

After Intervention

In partnership with SowGood, a fully functional farm was set up, enabling students to be engaged actively in lessons about the environment. The inauguration took place in December 2021.

Computer Lab

Before Intervention

This room was dilapidated, empty, and devoid of furniture.

After Intervention

Functional computers and appropriate furniture have been added, to improve the learning experience for students.

Soap-Dispensers

Before Intervention

The healthy and hygiene of students is of utmost importance, particularly during these times, and before intervention, the handwashing facilities did not have functional soap dispensers...

After Intervention

The installation of 6 soap dispenser machines, over the 2 floors, serves to ensure that COVID protocols are followed, in addition to promoting good hygienic practices, and prevent absenteeism due to illness...
